EXPERIENCE-DRIVEN WORK

Digital Hotel Menu   (2023)

- Built a feature-rich digital menu card with **React** and **Firebase**, allowing real-time menu updates, dynamic pricing, and user feedback.
- Implemented digital menu cards for the **top five Salur town hotels**, streamlining operations and enhancing customer satisfaction.

FREELANCE ENDEAVORS

Foodie E-commerce   (2023)

- Created 'Foodie' using the **MERN** stack, delivering a user-friendly website with **admin-controlled** item management, user filtering, ordering, and contact features.
- Crafted an informative 'About' section, showcasing order **history** and a two-day return policy to enhance transparency.

Local Store-shop   (2023)

- Developed 'Local Store Shop' using **React** and **Firebase**, providing an e-commerce platform for clothing with **admin-customizable** features and Firestore database integration.
- Implemented secure user registration, allowing users to sign up via **email and password** or **Google login** for a seamless shopping experience.

House Renting Website   (2022)

- Developed a **MERN** stack-based 'House Renting App' enabling users to list and search for rental properties, offering features like proximity search and location-based filters for enhanced user experience.
- Implemented secure user **authentication**, ensuring that owner contact details are visible only to logged-in users, promoting **privacy and safety**.

ACADEMIC PROJECTS

Online Exam Platform   (2023)

- Designed and developed a comprehensive online exam platform using the MERN stack, encompassing a wide range of features found in popular examination platforms.
- Demonstrated expertise in creating a robust online assessment platform with a suite of features for users, enhancing the accessibility and functionality of online exams.

PROGRAMMING EXPERIENCE

- Solved **900+** Programming Questions Using **C++** , Earned **20 Badges** And Ranked Less Than 12k In **Leetcode.**
- Ranked **140** Out Of **10,000+** Students, December Challenge 2021 Division 3 (Rated), CodeChef.

CERTIFICATIONS

- The Complete Web Developer in 2022: Zero to Mastery .
- Cloudera Modern Big Data Analysis with SQL, Coursera.
- KPIT Certificate Of Appreciation in the KPIT NOVA Hiring Hackathon 2022

TECHNICAL SKILLS

Web Techniques

HTML	CSS3	Bootstrap	JavaScript
